

Flexible, Flawless Fulfillment

NetSuite Advanced Order Management

Today's commerce environment demands efficient, transparent and automated order fulfillment. It's what differentiates your business and creates loyal customers who buy more and become brand advocates. NetSuite Order Management enables you to meet and exceed rising customer expectations for omnichannel fulfillment, while profitably scaling your business.

Order orchestration

Automate and manage the end-to-end, order lifecycle: order capture and validation, order release, shipment confirmation, customer communications and settlement. Support complex processes such as split shipments, drop ship, personalized products, continuity programs and digital fulfillment.

Order sourcing and allocation

NetSuite's intelligent order allocation decides how best to fulfill orders based on your global inventory visibility and business rules. Configure NetSuite's automatic location assignment to dynamically apply your fulfillment strategies and optimize for reduced costs, faster delivery or a combination of factors. The rules-based engine enables a cross-channel, fulfill-from-anywhere solution.

Key Benefits

Increase revenue and customer lifetime value.

Boost profits with effective inventory and order management.

Deliver seamless, cross-channel interactions.

Empower employees to service customers across all touchpoints.

Spend less to integrate, maintain and change your order management processes.

Inventory visibility

Get a single source of truth for inventory, spanning warehouses, stores and 3PL locations. Manage commitments and Available to-Promise (ATP) inventory accurately across all channels, linking commerce to your supply chain. Boost inventory management across all locations with inventory planning, replenishment and warehouse management capabilities.

Fulfillment execution

NetSuite's order fulfillment adapts to all warehouse types. Smaller facilities can use the native pick, pack and ship functionality, and integrate with key shipping providers. Larger locations can leverage NetSuite Warehouse Management for sophisticated, outbound fulfillment operations. You can also transmit orders to third-party fulfillment providers or external warehouses. Even orders with personalization or assemble/make-to-order requirements are seamlessly managed. NetSuite also supports digital fulfillment and integration with the service providers of your choice.

Store fulfillment

Use your stores as a competitive differentiator for a buy anywhere, fulfill anywhere, return anywhere experience. Optimize inventory by using store inventory to fulfill orders from all channels. Enable stores to efficiently fulfill omnichannel orders through tailored store fulfillment processes, including store pickup, ship from store and ship to store.

Subscriptions

From customer acquisition through retention, automate and execute subscription definition, the order process, billing change orders and renewals with a powerful recurring revenue engine.

Drop-ship/Endless aisle

An end-to-end, automated drop-ship fulfillment process provides the capabilities to expand your assortment without increasing warehouse and store footprints. Efficiently manage drop-ship programs, including order capture and validation, communicating dropship orders to suppliers, receipt of supplier acknowledgement and shipping confirmations, seamless communications back to the customer and settlement with the supplier.

Returns and exchanges

Set rules to accept returns from all channels, fulfill exchanges and manage the credit process. NetSuite eliminates points of failure found in disparate systems to ensure accurate returns, confirm saleable items return to ATP inventory without delay, and detect and address any potential quality issues or fraud.

Customer service

A seamless omnichannel experience requires customer service representatives (CSRs) and store associates be empowered with order management capabilities to help them with customer inquiries about product availability, placing orders and managing post-order changes and issues.
